

Wissenschaftliches Kolloquium des Sonderforschungsbereiches 960 und des Biochemie-Zentrums Regensburg Sommersemester 2023 | Universität Regensburg

Thursday | 20.04. | 14.00 h | H 53
SFB960-Inhouse Seminar

Thursday | 04.05. | 14.00 h | H 53
Dr. Iva Mozgova (Biology Centre CAS, České Budějovice,
Czech Republic)
*Chloroplasts on a Polycomb leash? Contribution of PRC2 to
seedling emergence*
Host: Klaus Grasser

Tuesday | 09.05. | 13.00 h | H 53
Dr. Rafal Archacki (Systems Biology, University of Warsaw,
Poland)
*Understanding the activities of chromatin remodeler BRM in
Arabidopsis*
Host: Klaus Grasser

Tuesday | 23.05. | 13.00 h | H 53
Prof. Roberto Chica (University of Ottawa, Kanada)
*Harnessing Conformational Flexibility to Design more Effi-
cient and Selective Enzymes*
Host: Reinhard Sterner

Thursday | 25.05. | 14.00 h | H 53
SFB960-Inhouse Seminar

Thursday | 22.06. | 14.00 h | H 53
SFB960-Inhouse Seminar

Tuesday | 27.06. | 13.00 h | H 53
Tomasz W. Turowski, PhD (Institute of Biochemistry and Bio-
physics, Polish Academy of Sciences)
Host: Christoph Engel

Thursday | 29.06. | 14.00 h | H 53
Mikko Frilander (Institute of Biotechnology, University of Hel-
sinki, Finland)
Regulatory significance of the minor spliceosome
Host: Gunter Meister

Foto: Tobias Beck
